

Symptoms of **MEASLES?**

Symptoms of measles 7-14 days after contact with the virus:

- High fever (may spike to more than 104°)
- Cough
- Runny nose
- Red, watery eyes

2-3 days after symptoms begin:

- Tiny white spots (Koplik spots) may appear inside the mouth.

3-5 days after the first begins:

- Flat red spots may appear on the face, near the hairline. They then spread downward to the neck, body, arms, legs and feet.
- Small raised bumps may appear on top of the flat red spots.
- The spots may become joined together as they spread from the head to the rest of the body.
- High fever
